

MOON FROM THE OTHER SIDE

WORDS & MUSIC BY STEFANIE STEVEN 2017

Intro:

Hmmmm adlib

You can see the sun in the sky
You can see the stars as I
But you see the moon - just from the other side
And you know it's true - my heart belongs to you

No matter where you go,
no matter what you do,
I confess that I'm in love with you.
And I fly through night an day,
You know that I will find my way,
to lie in your arms again

Chorus:

You can see the sun,
You can see the stars,
But you see the moon
just from the ohh..other side
And I fly through night an day,
You know that I will find my way,
to lie in your arms again

Bridge:

Every day without you – seems like wasted time
I will come and hold you – in these arms of mine

Uh hmm...adlip

Chorus: 2x

You can see the sun,
You can see the stars,
But you see the moon
just from the ohh..other side
And I fly through night an day,
You know that I will find my way,
to lie in your arms again
